

TORONTO IMPLANT STUDY CLUB 2007 PROGRAM

New for 2007

- **NEW Location: Ontario Science Centre**
770 Don Mills Rd. Toronto
- **Advanced Hands-On Workshops**
- **Additional Bonus Programs**
- **Member Recognition Awards Night**

Membership Rewards

- **Ontario Science Centre (OSC)**
 - 15% reduction on becoming an OSC member
 - 20% off public screenings
- **Reduced Admission to the International Dental Congress 2007**
- **Reduced Fee for Dr. Arlin's 2 Day Seminars: Basic and Advanced Periodontics**
- **Reduced Fee for Office Medical Emergencies a FULL DAY HANDS-ON seminar**
- **\$200.00 discount for Nobel Biocare World Tour in Las Vegas in May 2007 and 25% off admission to their World Tour in Montreal Nov. 2-4, 2006!**
- **\$200.00 discount off first time registrant for all seminar vacations from www.kennedyseminars.com**
- **\$100.00 off Implant Placement: Hands-On, A 2 Day Surgical Skills Workshop**
- **ALL Seminars are approved for Fellowship and Mastership Programs of the AGDO**
- **Free Mike Lakhani & Assante Gourmet Dinner and Wine Tasting**

**Reduced Early
Registration Fee:
Save \$75.00**

**Previous Members:
\$475.00 + GST (6%)**

**New Members:
\$525.00 + GST (6%)**

**To register please
complete the
registration form
on the back of
this page or call
905-882-5839.**

TORONTO IMPLANT STUDY CLUB

Multidisciplinary Format

2007

TISC CO-FOUNDERS

Dr. Murray Arlin

D.D.S, F.R.C.D.(C), Periodontist

Mr. David Kochberg

R.D.T., Technical Specialist,
Applied Arts Ceramic Labs Ltd

JANUARY 2007

Tues. Jan 16 - Evening Seminar (2 pts)

TISC: Award Recognition and Opening Gala -
The Future of Implant Dentistry

Speakers: TISC Advisory Board

**Mon. Jan. 22 - Advanced Hands-On
Evening Seminar (2 pts)**

\$100.00 refundable deposit required

BioHorizons: Prosthetic and Surgical Placement:

Advanced Hands-On Workshop

Speakers: Mr. Mark LoPresti & Mr. Nello Matarazzo

Fri. Jan. 26 - Full Day (6 pts)

Zimmer: Esthetic Solutions with Zimmer Tapered
Screw-Vent and One-Piece Implant Systems

Speaker: Dr. Henry Salama

FEBRUARY 2007

Thurs. Feb. 8 - Evening Seminar (2 pts)

Astra Tech Dental: Regenerative Implant Therapy:

A 14 Year Experience with the Astra Tech System in
Montreal

Speaker: Dr. Mark Spatzner

Fri. Feb. 16 - Full Day (6 pts)

Nobel Biocare: Anterior Implant Restorations: When
Biology Meets Esthetics

Speaker: Dr. Eric Van Dooren

Tue. Feb. 27 - Evening Seminar (2 pts)

Innova Corp: The Pitt-Easy Dental Implant System

Speaker: Ms. Jan Finn

MARCH 2007

Fri. Mar. 2 - Full Day (6 pts)

Straumann: Interdisciplinary Implant Therapy:
Achieving Surgical and Prosthetic Excellence

Speakers: Dr. Donald Somerville &
Dr. Brian Rittenberg

Tues. Mar. 6 - Evening Seminar (2 pts)

Assante: Tax Matters for Dentists

Speaker: Mr. Mike Lakhani

Fri. Mar. 23 - Full Day (6 pts)

3i Implant Innovations: Innovative Design & Practical
Techniques for Implant Dentistry

Speaker: Dr. Michael Block

Wed. Mar. 28 - Evening Seminar (2 pts)

Straumann: Advances in the Straumann® Dental
Implant System

Speakers: Mr. Denis Sarrasin & Mr. Dave Brown

APRIL 2007

Fri. Apr. 13 - Full Day (6 pts)

Swiss NF: Blending State-of-the-Art Techniques with
the New Mini ERA Implant for Overdenture Support

Speaker: Dr. Joseph L Carrick

Wed. Apr. 18 - Evening Seminar (2 pts)

Consult-Pro: Patient Education: Your Pathway to a
Successful Practice

Speaker: Dr. Boris Pulec

Mon. Apr. 23 - Evening Seminar (2 pts)

3i Implant Innovations: Restorative Platforms
& Their Aesthetic Results

Speaker: Mr. Dave Dommel

MAY 2007

Fri. May 4 - Full Day (6 pts)

Astra Tech Dental: Bio-inspired Prosthetic Implant
Designs – Making Use of What Nature Gives Us

Speaker: Dr. Clark Stanford

Thurs. May 10 - Evening Seminar (2 pts)

Nobel Biocare: Restorative Hands-On

Speaker: Ms. Mavis Hunter

May 20 - 24 BONUS

Nobel Biocare World Conference in Las Vegas
4 Day Convention

Wed. May 30 Evening Seminar (2 pts)

RBC: Take the Money & Run

Speaker: Mr. Timothy A. Brown

JUNE 2007

Fri. June 1 - Full Day (6 pts)

Citagenix: Tissue Engineering & Regeneration -
The Past, Present and Future: A Co-Presentation

Speakers: Dr. John Kay & Dr. Steven A. Faigan

SEPTEMBER 2007

Tue. Sept. 18 - Evening Seminar (2 pts)

Forestadent: Light Forces Move Mountains:
Orthodontic Concepts for the 21st Century
Speaker: Dr. Ian Erwood

Sept 28-29 - BONUS 2 Full Days

International Dental Congress
Speakers: Various speakers

OCTOBER 2007

Wed. Oct. 3 - Social

Mike Lakhani & Assante: FREE Wine Tasting & Gourmet Dinner
Must register in advance - very limited seating. First come, first served

Thurs. Oct. 18 - Evening Seminar (2 pts)

BioHorizons: In-Office Iliac Crest Bone Graft Surgery to Facilitate Ideal Implant Placement
Speaker: Dr. Marshall Freilich

Fri.-Sat. Oct. 19-20, 2007- BONUS 2 Full Days

Nobel Biocare & Arlin Seminars:
Implant Placement: Hands-On
Speaker: Dr. Murray Arlin

Tue. Oct. 23 - Evening Seminar (2 pts)

Scotiabank: Dentistry's DaVinci Code...Unlocking the Secrets to Success
Speaker: Dr. Ian Wexlar

Fri. Oct. 26 - Full Day (6 pts)

Nobel Biocare: Interdisciplinary Approach to Osseointegrated Implants in the Aesthetic Zone
Speaker: Dr. Ricardo Mitrani

NOVEMBER 2007

Fri. Nov. 2 - BONUS - Hands-On Full Day (6 pts)

Philips/3M ESPE: Getting Ready for Your Next Medical Emergency
Speaker: Dr. Peter Nkansah

Wed. Nov. 7 - Evening Seminar (2 pts)

Nobel Biocare: Treatment Planning Concepts, Surgical Parameters & Implant Prosthetics
Speaker: Dr. Mark Lin

Fri. Nov. 16 - Full Day (6 pts)

BioHorizons: What NOT to do in Implant Dentistry - Keys to Clinical Success
Speaker: Dr. Natalie Wong

Thurs. Nov. 22 - Evening Seminar (2 pts)

Vident: Chair Side Ceramic Customization: It's Easier than You Think!
Speakers: Dr. Stephen Tsotsos & Mr. Mike Piotrowicz

Fri. Nov. 23 - BONUS Full Day (6 pts)

Arlin Seminars: Basic Periodontics
Speaker: Dr. Murray Arlin

Sat. Nov. 24 - BONUS Full Day (6 pts)

Arlin Seminars: Advanced Periodontics
Speaker: Dr. Murray Arlin

Mon. Nov. 26 - Advanced Hands-On Evening Seminar (2 pts)

\$100.00 refundable deposit required
Straumann: Comprehensive Hands-On Training
Speakers: Mr. Dave Brown & Mr. Denis Sarrasin

Fri. Nov. 30 - Full Day (6 pts)

Dentsply Tulsa Dental: Endodontics Re-Defined
Speaker: Dr. Stephen Niemczyk

DECEMBER 2007

Mon. Dec. 3 - Evening Seminar (2 pts)

TISC: Mini-Clinics
Speakers: TISC Advisory Board Members

Fri. Dec. 7 - Full Day (6 pts)

Prosthodontic Associates: Prosthodontic Potpourri
Speakers: Dr. Izchak Barzilay, Dr. Effrat Habsha & Dr. John Zarb

Membership Rewards

- Ontario Science Centre (OSC)
 - 15% reduction on becoming an OSC member
 - 20% off public screenings*
- Member Recognition Awards Night**
- Reduced Admission to the International Dental Congress 2007
- Reduced Fee for Dr. Arlin's 2 Day Seminars: Basic and Advanced Periodontics
- Reduced Fee for Office Medical Emergencies a FULL DAY HANDS-ON seminar
- \$200.00 discount for Nobel Biocare World Tour in Las Vegas in May 2007 and 25% off admission to their World Tour in Montreal Nov. 2-4, 2006!
- \$100.00 off Implant Placement: Hands-On, A 2 Day Surgical Skills Workshop
- ALL Seminars are approved for Fellowship and Mastership Programs of the AGDO
- Free Mike Lakhani & Assante Gourmet Dinner and Wine Tasting (limited attendance)

Recognition Awards and Gala Opening: Future of Implant Dentistry

The TISC will recognize those members who have supported us over the years. Each recipient will receive a special TISC Recognition Certificate. To qualify for a recognition award you must have been a member of the TISC for min. 15 years and be a current 2007 member.

What new discoveries have been made in dentistry? What will impact our future as dentists from a technological, clinical, and financial perspective?

Speakers: Murray Arlin, David Kochberg & Advisory Board Members

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Mon. January 22

H Evening

BioHorizons - \$100.00 refundable deposit required

Prosthetic and Surgical Placement: Advanced Hands-On Workshop

- Premium diploma will be given to course participants
- Due to the material and equipment necessary for this workshop there is extremely limited seating and a \$100.00 refundable deposit is required.
- Refund will be distributed at the end of the seminar to all participants.

Mr. Nello Matarazzo

Mr. Nello Matarazzo is the National Manager for BioHorizons Implant Systems Canada. He has owned and currently owns several dental related companies. He is also the Director for the Misch International Implant Institute Canada (TM). He has been published in dental journals and is active in training and lecturing in the dental field. Nello also assists in European operations for BioHorizons.

Mr. Mark LoPresti

Mr. Mark LoPresti has been a sales representative for BioHorizons Canada for the past two years. He currently manages the South Western Ontario territory and is in the top one percentile of dental implant representatives internationally. Mark has had extensive training on the technical aspects of the BioHorizons Implant System and has a very high level of knowledge of competitive implant systems available. Mark has also assisted in the direction of the Misch International Implant Institute CanadaTM.

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included

Location: Ontario Science Centre (770 Don Mills Rd.) - Gemini West Room

Fri. January 26

Full Day

Zimmer Dental

Esthetic Solutions with Zimmer® Tapered Screw-Vent® and One-Piece Implant Systems

The lecture and workshop will focus on simplifying your surgical and prosthetic techniques, specifically for anterior single tooth replacement with the Zimmer one-piece dental implant.

The program will include:

- Features/benefits of the Zimmer System, including the one-piece implant design and related abutments for Tapered Screw-Vent implants
- Preliminary results of an ongoing clinical study
- Patient selection/treatment planning
- How to perform “hands-on” implant placement and restoration in models

Dr. Henry Salama

Dr. Salama earned his D.M.D. from the University of New York at Binghamton where he received a B.S. in Biology. He then pursued post-graduate specialties in Periodontics, Periodontal Prosthetics, and Fixed Prosthodontics as well as Implant Surgical Training and Implant Prosthetic Training. In addition to joining Goldstein, Goldstein and Garber as Director of the practice's state-of-the-art Implant Center, he continues to maintain his current position as Director of Implant Surgery at the University of Pennsylvania School of Dental Medicine.

Time: 8:00 a.m. - 4:30 p.m. 6 Points - Breakfast, breaks and lunch included

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Notes:

Advance Registration Required for Each Meeting. Please call: 905.882.5839

Astra Tech Dental

Regenerative Implant Therapy: A 14 Year Experience with the Astra Tech System in Montreal

Dr. Mark Spatzner

Dr. Mark Spatzner graduated from McGill University in 1978 with a BSc . In 1982 he completed his undergraduate dental training at the Universite de Montreal with a D.M.D. In 1987 he received a Diploma in Periodontology from the University of Toronto after completing his specialty training. Currently Dr. Spatzner is an Assistant Professor at McGill University and was the Section Head in Periodontics for the General Practice Residency Program at the Montreal General Hospital. Dr. Spatzner has published and has given numerous scientific presentations in the field of Periodontology and Implant Dentistry. Currently he has a private practice in the Montreal area that is limited to Periodontal and Implant Therapy.

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included

Location: Ontario Science Centre (770 Don Mills Rd.) - Gemini West Room

Fri. February 16 Full Day

Nobel Biocare

Anterior Implant Restorations:When Biology Meets Esthetics

The prerequisite to successful implant therapy in the esthetic zone is the understanding of the peri-implant mucosal barrier and the peri-implant soft tissue anatomy and physiology. In the constantly evolving field of esthetic implant restorations, emphasis is placed on selecting the least iatrogenic surgical and prosthetic procedure along with the most appropriate implant and abutment designs. Proper understanding of the need for three dimensional hard and soft tissue preservation or augmentation will result in a better soft tissue stability and clinical success in the esthetic zone. This clinically oriented course will present methods to preserve and augment soft tissues to establish esthetic tissue contours in different clinical situations and biotypes.

Dr. Eric Van Dooren

Dr. Eric Van Dooren attended the Katholieke Universiteit Leuven, Belgium, where he received his degree in dentistry in 1982. After graduating he opened a private practice in Antwerp, Belgium, which is limited to periodontics, fixed prosthodontics, and implants. Dr Van Dooren lectures nationally and internationally, mainly on aesthetics, implants and aesthetic periodontal surgery. He has published several articles in International Journals.

Time: 8:00 a.m. - 4:30 p.m. 6 Points - Breakfast, breaks and lunch included

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Tues. February 27 Evening

Innova Corp

The Pitt-Easy Dental Implant System

Ms. Jan Finn

Ms. Jan Finn obtained her Registered Dental Assistant (RDA) certificate from the Institute of Business Technology in Morristown, NJ. Ms. Finn has experience in all aspects of dental practices including clinical chair side assisting, office administration, and practice management consulting. For the past 12 years, Ms. Finn has been working in the dental implant industry holding positions ranging from senior technical support, continuing education manager, sales territory manager and prosthetic specialist.

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included

Location: Ontario Science Centre (770 Don Mills Rd.) - Gemini West Room

Interdisciplinary Implant Therapy: Achieving Surgical and Prosthetic Excellence

- Fundamentals of surgical and prosthetic interaction
- Advanced surgical techniques for severely compromised sites
- Predictably shortened treatment protocols
- Collaborative surgical and prosthetic treatment planning
- Enhancing aesthetic outcomes utilizing immediate placement/provisionalization and utilizing zirconium CAD / CAM technology

Dr. Donald Somerville

Dr. Donald Somerville is a graduate of the University of Connecticut School of Dental Medicine, Harvard School of Dental Medicine and Texas A & M, Baylor College of Dentistry. He is Prosthodontic and Maxillofacial Prosthodontic consultant to the Princess Margaret Hospital and Associate in Dentistry at the University of Toronto, Faculty of Dentistry. Dr. Somerville practices aesthetic, implant and reconstructive dentistry in Toronto and is a fellow of the International Team for Implantology.

Dr. Brian Rittenberg

Dr. Brian Rittenberg is an Oral and Maxillofacial Surgeon practising in Toronto, Ontario, Canada. He maintains a private practice with Crescent Oral Surgery, and is an attending surgeon at Mount Sinai Hospital in Toronto. Brian is a graduate of the Faculty of Dentistry in Toronto, where he also completed his Oral and Maxillofacial Surgery training, obtaining a Masters degree in Bone Regenerative Biology. Brian practices full scope Oral and Maxillofacial Surgery, with a special interest in dental implants and hard and soft tissue reconstruction as it pertains to dental implants

Blending State-of-the-Art Techniques with the New Mini ERA Implant for Overdenture Support

This course is designed to give the knowledge and confidence to place Mini ERA® Implants that will support an overdenture. The Mini ERA® Implant is a new tool to help address quality of life issues as it pertains to denture patients using the only mini overdenture implant approved by the FDA for permanent use. It will identify for the general dentist which cases are ideal for them to do and which ones should be referred. Find out just how many patients are looking for alternatives to denture adhesives, but don't know there is an economical solution.

What you will gain:

Attitude

- Treatment Planning
- Sequencing
- Presentation
- Fees & time considerations
- Marketing

Skills

- Place Mini ERA Implants
- Retro-fit denture
- Learn how to place angle corrections, if necessary
- Place and pick up male ERA attachments

Knowledge

- Punch technique for implant placement
- Flap design
- Use of paralleling device to aid in implant and abutment placement
- Use of Eclipse Prosthetic Resin System
- CT Scan Technology to predict implant placement

Dr. Joseph L Carrick

Joseph L. Carrick DDS, FAACD, DICOI, attained his DDS degree from the University of Texas Health Science Centre at San Antonio in 1977. He maintains a private practice with an emphasis on cosmetic dentistry in the Woodlands, Texas. Dr. Carrick has served in various capacities for the American Academy of Cosmetic Dentistry (AACD), as President from 1998 to 1999 and currently on its Board of Governors. He is also an Examiner for the Accreditation for the AACD, and has served as Editor of the Journal of Cosmetic Dentistry.

Time: 8:00 a.m. - 4:30 p.m. 6 Points - Breakfast, breaks and lunch included

Consult-Pro

Patient Education: Your Pathway to a Successful Practice

Dr. Boris Pulec

Dr. Boris Pulec graduated from the University of Toronto in 1985 with his DDS. He has been restoring dental implants since 1987 and placing implants since 1990. He has developed an interactive computer software program (Consult-Pro) used by dentists in over 20 countries. Dr. Pulec is an active proponent of Implant Dentistry through education of both the public as well as the profession. He is a member of numerous implant organizations and was the 2003 president of OSCO (Ontario Study Club for Osseointegration).

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included

Location: Ontario Science Centre (770 Don Mills Rd.) - Gemini West Room

Bio-Inspired Prosthetic Implant Designs: Making Use of What Nature Gives Us

Implant outcome in poor quality bone or sites where site development is limited often necessitates delayed healing times and multiple staged procedures. The use of the fluoride modified Fixture MicroThread OsseoSpeed™ dental implant system in poor quality bone has been documented in formal multicenter clinical studies documenting excellent clinical results.

In addition to the osseous tissue response, there are many times though when gingival or mucosal tissue varies in shape or architecture in the transmucosal region. This is especially true in cases of immediate placement in the extraction sockets in the anterior esthetic zone. Further, the connective tissue and junctional epithelial seal that naturally forms around prosthetic implant abutments depends on the biomechanical stability of the implant-to-abutment interface and supra-crestal abutment surface area allowing the establishment of a stable biological seal.

There are many clinical situations where the clinician desires to alter the shape and contour of the restorative margin and therefore the use of a scalloped-shaped abutment provides predictable esthetics and support of the adjacent soft tissue.

**Dr. Clark M. Stanford**

Dr. Clark M. Stanford, DDS, PhD holds the position of Centennial Fund Professor for Clinical Research in the Dows Institute for Dental Research and in the Department of Prosthodontics, College of Dentistry, University of Iowa. He also holds an appointment in the Department of Orthopaedic Surgery, College of Medicine, University of Iowa. He has been on the faculty at the University of Iowa since 1992. His research areas deal with osteoblastic gene expression especially as a function of acquired cell shape, hormonal regulation of bone and pathological processes leading to osteoporosis/osteopenia

Dentistry's DaVinci Code...Unlocking the Secrets to Success

Dr. Ian Wexler

Dr. Ian Wexler, an ex-dentist who is currently Canada's leading insurance specialist for dentists, has been in over 1000 dental practices across Ontario over the last 12 years. As a result of this unique experience, he has amassed volumes of information on the secrets behind success for dentists. During this presentation, Dr. Wexler will share keys and clues to achieving what every dentist is looking for in their practice.

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included

Location: Ontario Science Centre (770 Don Mills Rd.) - Gemini West Room

Fri. October 26 Full Day

Nobel Biocare

Interdisciplinary Approach to Osseointegrated Implants in the Aesthetic Zone

Contemporary implant dentistry requires a careful diagnosis and treatment planning phase prior to the actual treatment. In order to obtain consistent and predictable results, surgeons, restoring dentists, orthodontists and dental technicians should work as a team.

This course will describe all phases of treatment for those patients receiving osseointegrated implants in the aesthetic zone, covering all aspects, from treatment planning phase to completion, emphasizing the importance of soft tissue management from the prosthetic end as well as fundamental laboratory communication tools.

The course will also cover different treatment protocols:

- Single tooth restoration and multiple implant restorations.
- Full mouth reconstructions on teeth & implants
- Immediate vs. delayed loading.
- Several provisionalization techniques
- Conventional metal ceramics, all ceramic systems and CAD/CAM technology
- Overdenture applications will also be covered

Dr. Ricardo Mitrani

Dr. Mitrani received his DDS degree from the Universidad Tecnológica de México. He then obtained a certificate in prosthodontics, as well as a Master of Science in Dentistry from the University of Washington, where he served as the graduate prosthodontics program's assistant director in 2001. He currently holds academic affiliations at the University of Washington, University of Valencia (Spain) and the Universidad Nacional Autónoma de México. He is a member of several organizations, including American College of Prosthodontics, American Academy of Fixed Prosthodontics, and International College of Dentistry. He is on the editorial board of Practical Procedures and Aesthetic Dentistry (PPAD) in the Implantology section.
