Year at a Glance

2008

JANUARY 2008

Wed. Jan 16 - Evening Seminar (2 pts)

TISC Opening Gala! - The Techno-Clinical Team

Speakers: TISC Advisory Board

Fri. Jan. 25 - Full Day (6 pts)

Zimmer Dental: Achieving True Restoratively Driven Implant Dentistry Pre-Surgical Prosthetic Planning Concepts

Speaker: Dr. Scott Ganz

Sat. Jan. 26 - **BONUS** Full Day (6 pts)

Hands-On Component

Materialise Dental: CT - SimPlant Presentation

Speaker: Dr. Scott Ganz

Tues. Jan. 29 - Evening Seminar (2 pts)

Straumann Canada: New Implant Designs and Materials: How and When Can They Help You?

Speaker: Dr. Donald Somerville

FEBRUARY 2008

Mon. Feb. 4 - Evening Seminar (2 pts)

RBC: How to Effectively Renegotiate Your Office Lease

Speaker: Mr. Brian Ross Smith

Fri. Feb. 8 - Full Day (6 pts)

3M ESPE: All-Ceramic Restorations: From Material Selection to Clinical Success.

Speaker: Dr. Ariel Raigrodski

Fri. Feb. 22 - Full Day (6 pts)

Innova Corp: Value Driven Treatment Planning: A Practical Guide to Increase Patient Acceptance with Implant Dentistry

Speaker: Dr. Craig Cooper

Tues. Feb. 26 - Evening Seminar (2 pts)

Dental Marketers: Internal/External Marketing, Branding & Image, Reinforcing and Verbalizing with Visuals.

Open to members non-Dentist staff for an additional fee

Speaker: Mr. Harold Meredith

MARCH 2008

Sat. Mar. 1 - **BONUS** Hands-On

Nobel Biocare: Introduction to NobelGuide™

Speaker: Mr. Kevin McAuley, RDT

Mon. Mar. 3 - Evening Seminar (2 pts)

National Dental: Taking the Mystery Out of Detecting Oral Cancer and Potentially Malignant Diseases: The Screening, Diagnosis, Documentation, and Management

Speaker: Dr. Scott D. Benjamin

Wed. Mar. 19 - Evening Seminar (2 pts)

Assante Financial: Tax Matters for Dentists

Speaker: Mr. Mike Lakhani

Fri. Mar. 28 - Full Day (6 pts)

BioHorizons: Cost-Effective Overdenture Treatment Using 3.0mm One-Piece Implants

Speaker: Dr. Michael McCracken

APRIL 2008

Fri. Apr. 18 - Full Day (6 pts)

Nobel Biocare: Implants and Esthetics: A Blueprint for Success!

Speakers: Dr. Sonia Leziy & Dr. Brahm Miller

MAY 2008

Fri. May 2 - Full Day (4 pts)

Zimmer Dental: Making It Easy for Patients to Say "Yes": Case Acceptance for Complex Dentistry

Open to members non-Dentist staff for an additional fee

Speaker: Dr. Paul Homoly

Toronto Implant Study Club

TISC Opening Gala! - The Techno-Clinical Team

Join us at the kick-off of our 2008 program! We welcome all members to join us for an up-scale dinner and feature presentation.

Presentation Description: We have all seen cases that have gone horribly wrong because of a mis-communication within the dental team. What should we, as Dentists, do to be proactive in our effort to provide quality care for our patients.

Speakers: Murray Arlin, David Kochberg & Advisory Board Members

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Fri. January 25 Full Day

Zimmer Dental

Achieving True Restoratively Driven Implant Dentistry Pre-Surgical Prosthetic Planning Concepts

The presentation will provide clinicians techniques that can be used to enhance surgical and restorative accuracy for predictable placement and immediate loading of implants. The goal of this course is to introduce innovative methods and state of the art tools for proper diagnosis, treatment planning, and execution of the plan to provide patients with either a conventional or an accelerated protocol for implant reconstruction.

Dr. Scott Ganz

Dr. Ganz has delivered presentations both nationally and internationally on the Prosthetic and Surgical phases of Implant Dentistry and is considered one of the world's leading experts in the field of Computer Utilization for Diagnostic, Graphical, and Treatment Planning Applications in Dentistry.

Time: 8:00 a.m. - 4:30 p.m. 6 Points - Breakfast, breaks and lunch included

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Sat. January 26 Full Day

Materialise - Hands-On Bonus

CT - SimPlant Presentation

This presentation will cover concepts that will enable clinicians to understand state-of-the-art tools for diagnosis, and treatment planning to achieve true restoratively driven implant dentistry. The use of true 3-D image reconstructions allows clinicians to virtually assess bone anatomy in all views interactively. Use of virtual interactive prosthetic components will also be demonstrated to achieve successful immediate or delayed loading applications which will maintain soft tissue morphology, long term function, and esthetics.

Hands-On Software Demo Component – Must Bring Own Laptop to Participate – Please check the web for software specifications.

TISC Member \$45.00 + GST

Non-TISC Member \$295.00 + GST

All-Ceramic Restorations: From Material Selection to Clinical Success

The purpose of this course is to provide the knowledge and understanding of a variety of treatment options using various all-ceramic materials. The program will address the materials' properties in terms of esthetics and strength while making comparisons between the different all-ceramic materials available.

Dr. Ariel Raigrodski

Ariel J. Raigrodski, DMD, MS, is an Associate Professor and Director of Graduate Prosthodontics at the Department of Restorative Dentistry at the University of Washington. He also holds an appointment as Adjunct Associate Professor at the Department of Prosthodontics at the Louisiana State University School of Dentistry.

Time: 8:00 a.m. - 4:30 p.m. 6 Points - Breakfast, breaks and lunch included

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Fri. February 22 Full Day

Innova Corp.

Value Driven Treatment Planning: A Practical Guide to Increase Patient Acceptance with Implant Dentistry

This seminar is designed to provide referring dentists and implant surgeons with the proper tools to significantly increase patient acceptance for implant treatment. Dr. Cooper will share his innovative approach on patient selection, patient communication, and implant case presentation. He will introduce the key factors leading to increased patient acceptance for implant treatment.

Dr. Craig Cooper

Craig D. Cooper obtained his DDS from Indiana University and completed his implant training program at the Midwest Implant Institute, which included all modalities of implant dentistry – both surgical and prosthetic. Dr. Cooper is a Past President of the American Academy of Implant Dentistry.

Time: 8:00 a.m. - 4:30 p.m. 6 Points - Breakfast, breaks and lunch included

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Tues. February 26 Evening

Dental Marketers

Internal/External Marketing, Branding & Image, Reinforcing and Verbalizing with Visuals

Mr. Harold Meredith

Since 1992, Mr. Meredith has helped hundreds of dentists across North America build their practices with professional patient education, marketing ideas and communication systems. An informative and entertaining speaker that is not to be missed!

Open to members non-Dentist staff for \$50.00 + GST

Hands-On Component in the Afternoon

Beauty and Speed: How Implant Features and Clinical Protocols Help to Improve Predictability in Implant Dentistry

This full day seminar will focus on current concepts in implant dentistry and how to implement them into daily practice. The predictability, outcome and long-term stability of implant dentistry depends on several factors. The decision making pathways for a number of clinical situations will be described based on appropriate scientific and clinical evidence. A novel implant system with unique features and its advantage over other systems will be addressed.

The lecture will be open to all members but the hands-on component will be limited to the first 40 doctors who pre-register with the \$100 refundable deposit.

Dr. Thomas Kaus

Dr. Thomas Kaus, Dr Med Dent (Germany), Dip Implant Dent (RCS Eng) currently teaches several clinical components of the Diploma in Implant Dentistry at the Royal College of Surgeons of England. He organised and implemented the postgraduate certification courses for Implantology on behalf of the provincial regulatory body in Stuttgart, Germany.

Time: 8:00 a.m. - 2:00 p.m. Hands-on: 2:30 p.m. - 4:00 p.m. 6 Points

Breakfast, breaks and lunch included - \$100 refundable deposit required for hands-on only.

Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Assante
Tax Matters for Dentists

Mr. Mike Lakhani

Mike Lakhani, B.Comm., FCCA, CGA, CFP, RFP, is Vice-President, Senior Financial Advisor with Assante Financial Management Ltd. Mike has over 15 years experience as a financial advisor working in the Mississauga area. Mike is dedicated to helping dental professionals achieve their goals.

Time: 6:30 p.m. - 9:30 p.m. 2 Points - Dinner included
Location: Ontario Science Centre (770 Don Mills Rd.) - Gemini West Room

Fri. October 24 Full Day

Nobel Biocare
Immediate Function for Implant Prosthodontics in the Esthetic Zone

The course will provide the participant with an understanding of the current trends in immediate loading of dental implant fixtures with customized abutments and a provisional prosthesis when an excellent cosmetic result is required. Advances in dental materials, implant design geometry, and better understanding of wound healing around dental implants have made Immediate Function™ a clinical reality for many patients in the esthetic zone.

Dr. George V. Duello

George V. Duello, DDS, MS, is nationally board certified periodontist and was named a Diplomate of the American Board of Periodontology in 1987 and is also a member of the American, Missouri, and Greater St. Louis Dental Society. Dr. Duello is a Fellow of the American College of Dentists.

Time: 8:00 a.m. - 4:30 p.m. 6 Points - Breakfast, breaks and lunch included
Location: Ontario Science Centre (770 Don Mills Rd.) - Telus Room

Arlin Seminars - **Hands-On Bonus** Implant Placement: Hands-On, A 2 Day Surgical Skills Workshop

This two-day implant program is designed for new surgical users who already possess basic surgical skills, i.e. dental alveolar flap procedures and suturing capability, but wish to expand their treatment capabilities to include placement of dental implants. This is more than just a basic familiarization; rather, this program is an intensive and extensive tutorial that has the objective of turning attendees into implant users.

For more information and to register please call: 416-243-5215 or visit: www.murrayarlin.com

Dr. Murray Arlin

Dr. Murray Arlin received his training in Implant Dentistry initially in 1985 and since then has been actively involved in continuing education. He has placed and documented over 6,500 implants to date. He has lectured internationally and has authored many articles on Periodontics and Implant Dentistry.
